Seminars Description:

Mooring is the securing of a ship to a marine facility, terminal, berth or another ship using mooring lines. It is one of the most important and frequently undertaken activities on board on any ship.

In this seminar the following topics will be issued:

- Principle and Objective of Mooring
- List of Mooring Equipment
- Mooring operations plans and procedures
 - Anchoring System
 - Tug Operation
- Mooring Assessment Report

Participants will benefit through Best Practices with Lesson Learnt Video Presentations.

Who should attend:

The seminar is addressed to all Merchant Marine Officers and Maritime Professionals.

Facilitators:

Capt. Markos Botsaris
Capt. Michael Perrakis
Capt. Vasileios Papazoglou

A **Certificate of Attendance** will be issued after the end of the seminar from
Theta Training Center approved by ABS.
