中 华 人 民 共 和 国 大 使 馆

Note Verbal

No. D20-095

The Embassy of the People's Republic of China in the Hellenic Republic presents its compliments to the Ministry of Foreign Affairs of the Hellenic Republic and has the honor to inform the latter that starting from 8 November 2020, all Chinese and foreign passengers taking flights bound for China from Greek airports are required to take Covid-19 nucleic acid test and IgM Anti-body Blood Test within 48 hours before boarding and only those who test negative are eligible to board the plane. Attached is the notice for the test requirements and procedures in detail.

In light of the current situation and the practices of many countries, China has taken the above measure to promote international personnel exchange while ensuring the health and safety of international travel and reduce the risk of cross-border spread of the epidemic. The understanding and support of this measure from Greek government is much appreciated. The Chinese Embassy will continue to work closely with the Greek Ministry of Foreign Affairs to facilitate personnel exchange between our two countries under this challenging circumstances, especially for diplomatic staffs. It is also appreciated that the relevant departments in Greece be informed about the above arrangement.

The Embassy of the People's Republic of China in the Hellenic Republic avails itself of this opportunity to renew to the Ministry of

Foreign Affairs of the Hellenic Republic the assurances of its highest consideration.

Athens, November 03, 2020

To: Protocol Department and C4 Directorate,
Ministry of Foreign Affairs of the Hellenic Republic
