Τρίτη 30 Μαρτίου 2021, Διάρκεια 15.00-19.00

OBJECTIVES & BENEFITS

The scope of a Real-Time Navigational Assessment is to verify the vessel's navigational safety in line with International Regulations and Industry standards.

This course intends to enhance the participant's understanding of the **Navigational assessment requirements** and prepare them for an assessment **without stress for the outcome.**

Facilitator:

Capt. Markos Botsaris.

A Certificate of Attendance will be issued after the end of the seminar from Theta Training Center approved by
